The High Pass Challenge is a strenuous mountain ride that climbs over Independence Pass, then winds past scenic Spirit Lake on the way to the Windy Ridge Viewpoint in the Mt. St. Helens National Monument area. The use of this pristine route was made possible by a special arrangement with the Gifford Pinchot National Forest and Mt. St. Helens National Monument. Not a ride you want to miss!

Beginning and ending in Packwood, Washington, the High Pass Challenge route uses low traffic national forest roads to explore the natural beauty that makes Washington special. Route maps will be available in your packet and online at [www.cascade.org](http://www.cascade.org).

At the top of Windy Ridge there will be a food stop to fill your tank for the ride back. Make sure to bring clothing you can layer because it can be very cold at the top. There are no shortcuts on this ride so be prepared!

The Cascade Bicycle Club Education Foundation 501(c)(3) assists more than 30,000 Puget Sound area kids and adults annually via our helmet giveaway program, bicycle safety classes, and Bike to Work Month. Kids learn critical safety information through our nationally recognized Sprocket Hero and Bicycle Rodeo Programs. Education is our first priority and the generous support of our members and ride participants is deeply appreciated.

### What is HPC?

High Performance Cycling (HPC) is a riding interest group within the Cascade Bicycle Club. HPC is structured to match the interests and needs of cyclists who like to ride fast, hard, far, and climb hills. We feel there are a large number of high performance cyclists who are not focused on racing but are seeking all that our program has to offer.

HPC is committed to helping strong cyclists challenge themselves to improve their skills and fitness. We maximize performance in a safe riding environment. Opportunities for interaction are offered through Cascade Bicycle Club group rides, events, classes, and web and newsletter content.

HPC riders should:

- Be able to ride at a strenuous effort level on the flats and in the hills.
- Possess the endurance to ride more than 50 miles.
- Be comfortable with, or desire to, master paceline riding techniques.
- Are you a High Performance Cyclist? Join us! [www.cascade.org/hpc](http://www.cascade.org/hpc)
